Press Release

Rebranding of Scrapbookerry

Scrapbookerry Rebrands and Adds New Products to their Range of Scrapbooks, Keepsakes and Treasures

November 20, 2014: Scrapbookerry has rebranded their business with a brand new website and some fantastic new additions to their product range.

Scrapbookerry was launched in 2011, starting with just six scrapbook albums; this range has grown dramatically now offering fifteen different types of scrapbook albums, all waiting to be filled with your photos and memorabilia to keep for future generations. Scrapbooks range from Five Paged Mini Albums to Squash Books, Baby Books to Named Books, Mini Accordion Albums to Luxury Accordion Albums, Envelope Albums to Journal Jars, Pocket Albums to Roll Tag Books and Scrapbook Framed Pages to Explosion Boxes and photo cards, all in all there is an album for everyone including Specialist Christmas Albums such as the Accordion Envelope Album and the Accordion Tag Albums. Scrapbookerry is no longer restricted just to scrapbooks now making Covered Notebooks, and Hand Bound Notebooks for Stationery fans; Wedding Stationery and have now extended their range to include Paper Folded items including the hugely popular Bird Cage and workshops teaching paper folding. Scrapbookerry has something for everyone.

Scrapbookerry was founded by Kerry Limbrick, after she experienced a huge demand for her scrapbooks. Everything made at Scrapbookerry is handmade by Kerry with as much love and care as if she was making the item for herself. She prides herself on using the safest products for photos and memorabilia, using only acid and lignin free items in her scrapbooks.

She said "All my life I have dabbled in arts and crafts but it wasn't until I made my first scrapbook page nine years ago that I found my passion. I love photos and the memories that they capture and am passionate about keeping them in the best condition for future generations to see them.

Everything I make at Scrapbookerry can be custom made, and everything is delivered with enough photo safe adhesive to put your photos and memorabilia into the scrapbooks. These scrapbooks are places to make your memories come alive not just places to store your pictures; you can put in your photos, memorabilia, and write down your memories from the event and keep your memories alive for you and your loved ones."

You can visit Kerry's online store at www.scrapbookerry.com
